## Yuba Feather School (k-12) - Marysville JUSD California

### Seating Capacity:

Before Installation - 72 Students    After Installation - 149 Students

### School Enrollment:

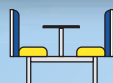

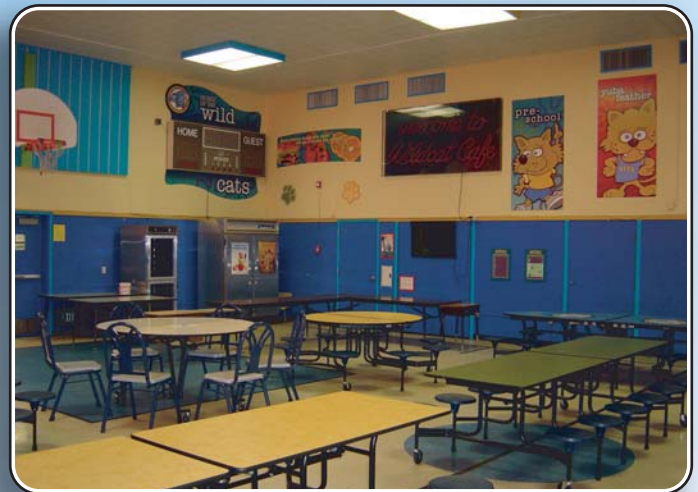

202 Students

This small school is located on the outskirts of the Marysville USD in a tiny community. The school teaches K-12 students in one complex. The shared multipurpose room fulfills many demands and had to meet multiple age group expectations.

We developed the Wildcat mascot so it appealed to the youngest as well as the oldest students and consolidated the image for the community.

The room is used for everything from exercise to science fairs to community activities to basketball and must be moved frequently.

This room is, by far, the nicest meeting room in the community.
